

HAZMAT 2019

15 & 16 May 2019, Crowne Plaza, Stratford-upon-Avon

About the Event

Hazmat 2019 is *the* ultimate forum for hazmat specialists to share experiences and gain knowledge.

Now in its 12th year, the Hazmat Event is an essential opportunity for Hazmat specialists to share experiences and knowledge with like-minded professionals working in the hazmat and chemical incident industry. The event draws on the knowledge and experience of a range of hazmat professionals and industry leaders, as well as that of NCEC's own emergency responders and experts and those from Tactical Hazmat.

Utilising delegate feedback gathered at the previous events, Hazmat 2019 will again incorporate interactive syndicate exercises and workshops on a cross-section of subjects as part of this two-day conference. Delegates will have the opportunity to register for specific workshops and syndicate exercises nearer the event once the topics have been finalised and synopses released. Workshops may include the popular Wet Chemistry practical, scenarios and case studies.

Feedback from delegates has also helped to determine the topics for presentations for 2019, and we will be encouraging speakers to include practical elements where applicable and encourage group interaction. We will be looking to encourage multi-agency attendance with relevant presentations and workshops as well as continuing to facilitate networking amongst delegates via a 'connections board'. Presentation and workshop topics and speakers are expected to include:

- Oxidisers workshop
- Case studies
- Cancer rates in firefighters
- Radiation detection workshop

We are currently reviewing the programme for 2019 so if you have a case study you would like to share or a suitable topic to present on, please contact us as soon as possible with an outline. Registration is now open!

Each year the Hazmat conference grows bigger and better and 2019 is set to be no exception!

Hazmat 2019 is organised by NCEC and is supported by media partner's Fire Times and MDM Publishing. Under the terms of the Data Protection Act 2018, respondents should be aware that your information will be stored on our secure systems and may be shared with other attendees and exhibitors after the event and they may contact you to offer products and/or services. NCEC may contact you after the event to request feedback about the event, but your details will not be used by NCEC for marketing unless you are already opted-in or request to opt-in to receive communications about our products and services. You have the right to withdraw your consent to the use of your data at any time by email to ncec@ricardo.com. The National Chemical Emergency Centre (NCEC) is a trading name of Ricardo-AEA Ltd; registered address: Shoreham Technical Centre, Old Shoreham Rd, Shoreham by Sea, West Sussex, BN43 5FG (registered in England and Wales, number 8229264).

Why should I attend?

Hazmat professionals need to keep up to date with hazardous materials response, chemical exposure and monitoring, emergency planning, developments in legislation, future technologies and learn lessons from past experiences. The Hazmat Event is the perfect opportunity to gain a wider understanding of these issues, and more importantly, practical ways to address them.

All the subjects covered are relevant to people involved in chemical incident response and the setting provides a great opportunity to question and discuss content both in the forum and informally one-to-one. Delegates are drawn from fire services, police forces, ambulance services, the MOD, chemical industry and bodies such as the Environment Agency, Public Health England and the Met Office.

Feedback from Previous Delegates

Don't just take our word for it, these are some of the comments we have received from previous delegates.

"For my first seminar, it was fantastic & made most welcome! Thank you."

"Excellent two days...again. Well done"

"Excellent choice of workshops, good info to guide procurement, policy & training in the future."

"An exceptional event for like-minded people sharing experiences and emerging issues."

"Only reason I wouldn't attend next year is due to the service letting other HMEPA's attend. I would definitely recommend to others"

"Best single point source of information for Hazmat professionals"

"Most relevant event in the sector"

Delegate Details

The delegate fee will entitle you to:

- attendance at the conference (including lunch and refreshments for 15 & 16 May 2019)
